**Attachments:** 20170926\_Draft\_Plans.pdf; CFAC\_WorkAreaStaging.pdf

Mike-

Yesterday you asked for a copy of the south pond stabilization plans and contact information for the Flathead Conservation District. Attached are the plans for the rip-rap project to protect the ponds. Also, I am copying Luke Carlson on this email. Luke is the Morrison Maierle professional engineer responsible for the south pond stabilization project. There is a meeting of the Flathead Conservation District on 10/10/17 in the evening at their office and the CFAC 310 application will be discussed. For Flathead Conservation District contact information, I have the following:

Ginger Kauffman – she is the administrator and is the best contact to reach conservation board members. Her phone is 406-752-4220. And her email is [gingerk@flathead.org](mailto:gingerk@flathead.org)

Ron Buentemeier- Ron represents Columbia Falls area on the board and also serves as board chairman; he can be contacted through Ginger. Ron was onsite and viewed the project area on 10/3/2017

Kenny Breidinger – Kenny is a MT Fish and Wildlife employee; he was onsite with Ron on 10/3/2017 to view the project area

Steve Wright
